Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 January 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12-43 and 61-65 and 69-71 are rejected under 35 U.S.C. 102(e) as being anticipated by Pratt et al (2004/0023096 A1).

Pratt et al teach a fuel cell assembly (100) comprising a fuel cell having an anode, a cathode, an electrolyte, an integral filter system (160), a filter housing (101) coupled to the fuel cartridge, and an air filter for cleaning air being supplied to the cathode (paragraphs 0002, 0008, 0011) and the air filter (160) being coupled the filter housing (101) wherein the integrated fuel cartridge and filter apparatus is coupled to fuel cell (see Abstract, Fig. 1, paragraphs 0002, 0008, 0011, claim 1). Pratt et al further teach a prefilter (162) in fluid communication with the filter (164) and with the fuel cell (paragraph 0012).

Response to Amendment

Applicant's arguments filed on January 5, 2007 have been fully considered but they are not persuasive.

Applicant argues that "the cited prior art Lakshmanan et al does not teach an air filter for cleaning air being supplied to the cathode of the fuel cell, as amended". The

Examiner now drops the Lakshmanan et al reference and newly introduces Pratt et al (2004/0023096 A1) as the primary reference under the 102(e) rejections of claims 12-43 and 61-65 and 69-71 to show: Pratt et al teach a fuel cell assembly (100) comprising a fuel cell having an anode, a cathode, an electrolyte, an integral filter system (160), a filter housing (101) coupled to the fuel cartridge, and an air filter for cleaning air being supplied to the cathode (paragraphs 0002, 0008, 0011) and the air filter (160) being coupled the filter housing (101) wherein the integrated fuel cartridge and filter apparatus is coupled to fuel cell (see Abstract, Fig. 1, paragraphs 0002, 0008, 0011, claim 1), as claimed. Pratt et al further teach a pre-filter (162) in fluid communication with the filter (164) and with the fuel cell (paragraph 0012), as claimed.

Applicant's arguments with respect to claims 12-43 and 61-65 and 69-71 have been thoroughly considered but are moot in view of the new ground(s) of rejection, as discussed above.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1724

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
